

iStudio 2.0 - Dynamic Data Dimensions

"If you don't like change, you're going to like irrelevance even less."

-General Erkc Shinseki

iStudio 2.0 - Intelligent Data Management and So Much More!

iStudio is based on a very simple idea: Data is only valuable if it is where you need it; when you need it.

The world of Data Management is complex. Every week there are new words and jargon: Data Warehousing, Data Loss Prevention, Online storage, Virtualization, Data in Motion, Data at Rest. . .

iStudio is a fully integrated solution that simplifies data management. It goes from sitting on the shelf to fitting seamlessly into your existing data management schema. iStudio protects, secures and gives you end to end control of your online, near line and even offline data.

iStudio 2.0

Secure. Compliant. Complete.

Data is an asset *only* if it is where you need it when you need it. Today's data management systems must comply with complex regulatory requirements, secure data against constant threats and do much more than just store it and forget it.

iStudio secures your data and creates audit trails with compliant backups. The total suite of iStudio tools provides an end to end data management system for full control of your data throughout its lifecycle!

Secure.

Physically Secure. Virtually Secure. Totally Secure.

- ☒ Physical Security = Many data sources, one iStudio data repository for access you control.
- ☒ Virtual Security = No cloud, no viruses, no hackers.
- ☒ Total = iStudio provides encrypted discs, removable hard drives; data only you can get your hands on!

**The electronic storage media must: preserve the records exclusively in a nonrewriteable, non-erasable format
SEC Regulation 17 CFR 240.17a-4(f)**

Regulatory Compliant. Policy Compliant. Audit Compliant.

- ☒ Regulatory Compliance = iStudio backups are compliant with legal statutes (SOX, HIPPA, GLBA) and regulatory agencies' (SEC, PCI, FDA, USDA, FAA) requirements.
- ☒ Policy Compliance = iStudio automation takes the guesswork out of policy performance because even the best policies are open to interpretation and compromise.
- ☒ Audit Compliance = iStudio puts your data where you need it when you need it, so audits are quick, cost-effective and painless.

Compliant.

Complete.

Complete Integration. Complete Support. Complete Control.

- ☒ Complete Integration = iStudio combines powerful hardware, smart software and 21 years of integration experience.
- ☒ Complete Support = Young Minds offers end to end support for the entire iStudio including hardware, software, updates and upgrades.
- ☒ Complete Control = iStudio makes data asset management easy by giving you central control of a robust and flexible permission system, keeping your data where only you can get your hands on it.

iStudio 2.0

One System. Many Tools. Infinite Possibilities.

Manage your data using the power and flexibility of iStudio.

- ☒ **Record:** CD, DVD or Blu-Ray discs in ISO 9660 compliant formats including Jolliett, Rockridge or UDF.
- ☒ **Secure:** Your data with hands free automation for up to 300 discs at a time.
- ☒ **Label:** Every disc as an integrated part of recording.
- ☒ **Store:** Up to 100+TB of data.
- ☒ **Archive:** Your data near line or off line.
- ☒ **Retrieve:** Data automatically. Reload and verify through the iStudio server.
- ☒ **Recover:** Quickly. Restore data on demand.
- ☒ **Duplicate:** Discs at your convenience choose priority, permissions and the type of media that work for you.
- ☒ **Distribute:** Your discs with ease since shipping labels can be created as part of the recording process.

The power, flexibility, speed, reliability and efficiency of iStudio make it an indispensable piece of your IT infrastructure.

iStudio 2.0

One System. One Vendor. One Call.

One support contract does it all. Young Minds' has a 21 year history of providing support for integrated solutions containing hardware and software; as well as upgrades and updates. If we sell it, we support it, it's that simple!

- ☒ **One System:** iStudio is a fully integrated system that combines server, robotics, writers, software, and a robust library.
- ☒ **One Vendor:** Young Minds has been building hardware, writing software and maintaining systems for 21 years.
- ☒ **One Call:** One contract covers your entire system for maintenance, updates and upgrades. We've got you covered!

55% of Fortune 1000 companies know that when it comes to building, supporting and maintaining integrated systems there are no minds like Young Minds!
